To Whom This May Concern,

This is to certify that VICTORIA ANNE KENT has been working for JAM SOFTWARE from 23/9/92 to 25/10/93, initially joining us for documentation and desktop publishing.

During her time with us, we were impressed by Vickie (as we came to know her) as a scrupulously honest, ebullient, gregarious, warm and genuine person, always with a kind word for everyone and always willing to help out and cooperate with others.

Hard-working, efficient, ambitious and self-driving, Vickie helped out with software and hardware installations, and from her knowledge of the Company products through documentation, she did more and more customer installation and training, eventually defining a role in the company for a Training section.

After her time with our company, it is with regret that due to the current economic situation, we have to downsize, and dispense with her valuable services.

We still plan to use her services as the needs arise, but can no longer afford her services on a full-time basis, and wish her well in her future endeavours.

We have no hesitation in recommending her, as she throws herself into any job to which she applies herself, and she will serve well any prospective employer.

Yours faithfully,
